

Woman's Place UK has 5 simple demands

- 1** Respectful and evidence-based discussion on the impact of law change. Women's voices must be heard
- 2** The principle of women-only spaces to be upheld and, where necessary, extended
- 3** A review of how Equality Act exemptions are being applied now to ensure women's needs are met
- 4** The Government to consult with women's organisations on how self-declaration would impact women
- 5** The Government to consult on how self-declaration will impact data-gathering and the monitoring of discrimination
